1968 - fall

EDITORIAL COMMENT

THE FOLLOWING IS THE OPINION OF THE EDITORIAL STAFF OF THE NEWS-LETTER. DURING THE PAST FEW MEETINGS IT HAS BECOME EVIDENT THAT THERE IS NOT THE PARTICIPTION (sic.) that is needed to keep the club healthy. When the budget was presented it was ramrodded through the meeting by a majority of nine votes. This is your money these people are spending on such things as buying a cave?? There are a few other things that they spent the money on that are in my mind but I will leave these things out this time.

Why can't the club spend some of its money on a party? Because some of the so-called super cavers think that this is a waste of money. I for one never use equipment or any of the other services of the club and still pay dues. I think that there is room for spending money on a party or two..

And now a few quotes "The club is too full of dead wood, it ought to be burned." Now on this I don't really agree, but I do think that the statement has some merit. We need to get off our asses and do some good caving again, that is in Texas and anywhere else that happens to strike our fancy. AND IF SOME OF YOU READERS HAVE BEEN DOING THINGS, WHY IN THE HELL DON'T YOU LET THE EDITORIAL BOARD KNOW ABOUT IT. The above quote is not mine but belongs to Aardvark Jones a partial observer.

SAFETY

Once again. There was a meeting by the self styled safety comm. last week at Pearce Hall. It was decided there that a club committee on safety should be established to check all the present equipment ,this committee to be made up of NEW CAVERS and one old caver. Also there should be a study made into the feasability of a UT emergency team. And let us not pooh pooh; this as has been done in the past.

FILM

There has been some interest shown in the making of a Caver Film. The first attempt has been made at Devil's Sink Hole. There is some merit in this idea and with all the commercial caves in the area, I am sure that we.. i.e. the members of the club can put together a good script and shoot some good footage. We will be able to use a 16mm camera and perhaps shoot the thing with sound. All we need now are some good ideas. Present all good ideas to Squire Lewis project chief and ambassadore..

.....NIXON IS NOW THE ONE.....

Now to the Bustamante trip....
This is the up coming trip. Below is a map of how to get to the cave and the town. Do not dispare if you get lost.

What you will need. 1. Money 2. VISA secured f rom Mex. Consul Perry Brooks bldg. 3. Bedding, hard rocky ground and can be very cold in Nov. (snow?) 4. Food, for the cave light and compact., for outside easy to prepare and filling. 5. Facilities. One Park with a stream, one Hotel and three beer places. Two eating places in the Town. 6. Nearby.. Cave Carizall (sic.) 7. Sabinas.. lots of eatarias.(sic.) 8. Clothes and boots it is a long climb to the cave. Old clothes for those who want and know, for the typical nurd anything.

IN Villaduma go to Second PLAZA ↑
turn Right and left and STRAIGHT
till you cross a bridge turn right →
