

Michael J. Gibbons

9 July 1958 – 20 January 2020, 61, NSS 68718

Fran Hutchens on Facebook and TexasCavers

I know everyone isn't on Facebook and thought this should be shared with the caving community. Sad news, suddenly and unexpectedly one our own, MJ Gibbons, past away this morning [20 January] from an apparent heart attack. There was never a dull moment hanging around MJ he will be missed. Once I have information from his family about a service I will let everyone know

Geary Schindel on TexasCavers

He was always willing to volunteer and helped at Deep and Punkin with the showers, at Robber Baron Cave, the LaChance Sinkhole, and with the Texas Hydro Geo Workshop where he played the key role in logistics, set up and tear down. He will be greatly missed,

Note by William R. Elliott

His last name was incorrectly listed as Gibbs in the TSA membership list, at 1835 Montview, San Antonio 78213

February 2 at 10:19 AM. Michael J Gibbons has gone to be with the Lord. July 9, 1958 - Jan 20, 2020. Former TR wrestler. (Class of 77)

A good friend with a heart of gold, who you could call anytime of the day or night and he would be there. He loved his family, caving, fishing, tinkering and Chubs (his dog). A few words to describe MJ, Mikey, Gibby, LilGib... opinionated, kind, stubborn, smart, a little crazy, intelligent, talented and crafty! We never know when our time will come, but yes he knew the Lord! We had recently talked about it! RIP my friend!
